The Community Association (BPKTCA) has established a representative team, working with an independent facilitator, to develop a 10-year Community Strategic Plan for our villages, in consultation with our community. This plan will encapsulate our community's values, character, aspirations and priorities, with an aim of ensuring sustainable development and the protection of our unique environment.

Over the next few months, we are starting with Community Conversations and encourage you to do the same. Our focus is on listening and learning. Each conversation is a chance for us (all) to better understand people's aspirations for our community, the concerns you have and what you believe might make a difference in strengthening the community and protecting what we love about living here. We'll take what we learn from these conversations and input to the 'Have Your Say' Days and use it to, together, develop a plan.

We intend to engage with Council and other decision makers to ensure that our plan, community values and aspirations are reflected in every policy and development proposal, which impacts our community, the local character and environment.

Let's all start the conversation...

where you live?

What kind of
community do
you want?

What are the
2-3 most
important
issues?

What are your
concerns about
the issues or the
future of this
area?

What changes
would you want
and not want
to see?

What do you
believe are the
priorities
for The Three
Villages?

When we talk about our community & village, we....
